TOWARDS A NEW GENERATION OF INDICATORS: NEXT STEPS

Barbara Ubaldi
Senior Project Manager – Digital Government and Open Data
OECD GOV
Paris, 6 September 2016

OECD
BETTER POLICIES FOR BETTER LIVES

Questions for discussion

- How should the OECD approach the 2016 OECD data collection on Digital Government and the development of OECD Digital Government Indicators?

- What are the main challenges to be anticipated to ensure a timely and efficient data collection? How can the delegates help out in managing these risks?

- Which principles should we prioritise?

OECD Recommendation on Digital Government Strategies

Openness and Engagement

1) Openness, transparency and inclusiveness

2) Engagement and participation in a multi-actor context in policy making and service delivery

3) Creation of a data-driven culture

4) Protecting privacy and ensuring security

Governance and Coordination

5) Leadership and political commitment

6) Coherent use of digital technology across policy areas

7) Effective organizational and governance frameworks to coordinate

8) Strengthen international cooperation with other governments

Capacities to Support Implementation

9) Development of clear business cases

10) Reinforced institutional capacities

11) Procurement of digital technologies

12) Legal and regulatory framework

Creating Value Through the Use of ICT

Next steps

Principles selection → Data collection → Indicators
